## SUMMARY

I'm making a career change because I aspire to have a job that allows me to be location independent and that enables me to utilize my creative and problem-solving skills in ways that are not possible in the field of radiography.

## TECHNICAL SKILLS

**Languages:** HTML, CSS, JavaScript, Python  
**Frameworks:** React, Flask, Bootstrap, TailwindCSS  
**Tools:** Git, NPM, VScode, PyCharm, AWS (Heroku), SQLite

## PERSONAL PROJECTS

### Todo App

Apr. 2023

JavaScript | React | TailwindCSS

- Developed a responsive Todo App using React and TailwindCSS with CRUD functionality for task creation, editing, and deletion, along with task list creation and management.
- Utilized the Vite build tool for fast and efficient development and deployment of the application.

### Restaurant Page

Mar. 2023

JavaScript | HTML | CSS | Webpack

- The restaurant website built with webpack is responsive and optimized for viewing on desktop, tablet, and mobile devices.
- The website includes a homepage, contact page, and menu page that are accessed through tabbed browsing.

### Library

Feb. 2023

HTML | CSS | JavaScript

- The Library App uses vanilla JavaScript, HTML, and CSS to allow users to create, edit, and delete books from a virtual library.
- The app includes a local storage feature that saves user data, preventing loss of information upon page refresh or app closure.

### Guess the Number Game

Nov. 2022

Python | Flask | SQLite

- Developed a Guess the Numbers game using Python, Flask, and SQLite database
- Implemented a user authentication system with CRUD functionality, allowing users to create accounts, edit their profile information, and delete their account if desired.

## RELEVANT EXPERIENCE

### The Odin Project

Jan. 2023 – Mar. 2023

#### Frontend developer training

- Created responsive websites with technologies like React, JavaScript, HTML and CSS that was reviewed by senior developers in a community of over 50.000+ members.
- Conducted tests and completed tasks weekly to grow as a developer while building personal projects.

### SmartNinja Web Development Bootcamp

Sep. 2022 – Dec. 2022

#### Fullstack developer bootcamp

- Learned HTML, CSS, and the Bootstrap framework for front-end development, as well as Python and Flask framework for back-end development and deployment of projects to AWS (Heroku).
- Collaborated with peers on web projects, improving my teamwork and practical application of new skills.
- Learned about key tools and processes used in IT companies and startups, such as GIT, GitHub, and wireframing.

## WORK EXPERIENCE

### University Medical Center Ljubljana

Oct. 2022 – May. 2023

#### Radiographer

- Performed a range of diagnostic imaging procedures, resulting in accurate diagnoses and treatment plans.
- Demonstrated adherence to safety protocols to minimize the risk of radiation exposure.
- Collaborated effectively with multidisciplinary teams and other healthcare professionals.

## EDUCATION

### BASc – Radiologic Tehnology – University of Ljubljana Faculty Of Health Sciences

Oct. 2019 – Aug. 2022

- Top student 2019, Student tutor
